

Nervous at Traffic Stops?

If you are **deaf, hard of hearing**, have **autism, apraxia**, or any other **communication disorder**, you can request that this medical information be made available to **law enforcement** through the **Oklahoma Tax Commission's** vehicle registration system.

HB2516 is a new **Oklahoma law** that gives drivers the ability to **voluntary disclose** their disability through their vehicle's tag in order to **prevent miscommunication and unnecessary escalation during traffic stops**.

**Request form 760-A from your tag agent
for more information.**
